

Vasa – European Journal of Vascular Medicine publishes papers from clinical and experimental angiology; all papers must not have been published elsewhere nor be under consideration at another publication. All **original papers, reviews, case reports** and **letters** to the Editor must be in English. Acceptance of the paper by editors automatically transfers the copyright to the Publishers in accordance with existing copyright laws.

The author confirms and guarantees on behalf of him-/herself and any coauthors that he or she holds all copyright in and titles to the submitted contribution, including any figures, photographs, line drawings, plants, maps, sketches, and tables, and that the article and its contents do not infringe in any way on the rights of third parties. Upon acceptance of the article for publication, the author agrees to transfer to the publisher the exclusive right to reproduce and distribute the article and its contents, both physically and in non-physical, electronic, or other form, in the journal to which it has been submitted and in other independent publications, with no limitations on the number of copies or on the form or the extent of distribution. These rights are transferred for the duration of copyright as defined by Swiss law. Furthermore, the author transfers to the publisher the following exclusive rights to the article and its contents:

- a) The rights to produce advance copies, reprints or offprints of the article, in full or in part, to undertake or allow translations into other languages, to distribute other forms or modified versions of the article, and to produce and distribute summaries or abstracts.
- b) The rights to microfilm and microfiche editions or similar, to the use of the article and its contents in videotext, teletext, and similar systems, to recordings or reproduction on other media, digital or analogue, including electronic, magnetic, and optical media, and in multimedia form, as well as for public broadcasting in radio, television, or other forms of broadcast.
- c) The rights to store the article and its contents in machine-readable or electronic form on all media (such as computer disks, compact disks, magnetic tape), to store the article and its contents in online databases belonging to the publisher or to third parties for viewing or for downloading by third parties, and to present or reproduce the article or its contents on visual display screens, monitors, and similar devices, either directly or via data transmission.
- d) The rights to reproduce and distribute the article and its contents by all other means, including photomechanical and similar processes (such as photocopy-

ing or facsimile), and as part of so-called document delivery services.

- e) The right to transfer any or all of the rights mentioned in this agreement as well as the rights retained by the Verwertungsgesellschaft «WORT» including the corresponding royalty rights to third parties within or outside Switzerland.

Authors should submit the manuscript in electronic form to <http://www.editorial-manager.com/vasa>. The online manuscript submission and review system for the journal offers easy and straightforward log-in and submission procedures. This system supports a wide range of submission file formats: for manuscripts – Word, WordPerfect, RTF, TXT and LaTeX; for figures – TIFF, GIF, JPEG, EPS, PPT, and Postscript. Each page of the manuscript should contain the page number in the upper right-hand corner. Please do not send any hard copies of the manuscript.

Preparation of the manuscript

Editorial Manager will create a *title page* so there is no need to add a title page.

The *maximum length* per article in the different categories is defined as follows: *Editorial*: max. 1500 words and 15 references; *Review*: max. 7000 words and 75 references; *Original communications*: max. 4000 words and 30 references; *Case report*: max. 2000 words and 20 references; *Letter to the Editor*: max. 600 words and 5 references.

Abstract and Zusammenfassung: Each should contain a maximum of 300 words, for original contributions structured like the paper itself (Background, Patients and methods, Results, Conclusions). Please also supply a maximum of six keywords and a running title in English for indexing purposes.

Main body: The paper itself should be structured according to international standards and contain the following sections: Introduction, Aims, Material and Methods, Results, Discussion, Summary, if necessary with subheadings. German texts should follow the Z-K-Rule (e.g., Leukozyten, not Leucocyten). Frequently used abbreviations should be written out upon initial employment, followed by the proper abbreviation in parentheses.

Tables should be numbered sequentially in Roman numerals.

A maximum of 8 *figures* are allowed in each paper. These should be submitted in reproducible form (unscreened originals, black-and-white glossies, laser printouts of graphs, slides) and numbered sequentially in Arabic numbers. The figure legends should be printed on a separate sheet. Figures are normally reproduced in black and white. Reproduc-

tion of color illustration is possible, but the authors will be invoiced for any extra costs incurred.

The *reference list* should be submitted as an own document and should conform to the Vancouver Style (see examples). References should be listed in **alphabetical order** according to name of the first author and numbered sequentially. **All authors of each reference must be listed.** References in the text should be put in square brackets, except when authors are mentioned for stylistic reasons. The journal names should be abbreviated in accordance with the List of Journals in the Index Medicus.

The *correspondence address* must be set directly into the system (Editorial Manager) and encompass academic title and complete address, including international country abbreviation and e-mail address.

The correction proof shall be sent to the corresponding author. Changes of content or style should be made only in exceptional cases. Correction costs exceeding 5% of the typesetting costs shall be invoiced to the author(s).

Offprints may be purchased. The order must be placed when returning the proofs at the latest.
